American Time Wi-Fi Clock Setup Instructions for Steel Double-Dial Clocks

Thank you for choosing American Time Wi-Fi Clocks for your synchronized time needs.

IMPORTANT: If the double-dial ring has not already been mounted, refer to the instructions provided in the double-dial ring kit for mounting the ring, then return to these instructions to set up and mount the clocks.

▷ Getting Started: For Customers with Preconfigured/Preprovisioned Clocks

If your Wi-Fi clocks were preconfigured/preprovisioned by American Time, visit click.american-time.com/dd-install or scan the QR code for installation instructions.

If you have an inCloud subscription and need to activate your clocks, follow the instructions below, under "Activate Your Clocks on inCloud".

▷ Getting Started: For Customers needing to Self-Configure/Self-Provision Their Clocks

If your Wi-Fi clocks were not preconfigured/preprovisioned by American Time, you'll need to self-configure and provision your clocks. Follow one of these instructions to complete this process.

Configure and provision your clocks using our Network Clock Setup app for Android.

Download and Install
https://click.american-time.com/app

Configure and provision your clocks using a computer/tablet.
